

Letter to Fred Thiele:

I write as a fellow Sag Harborite, the owner of a house at 3 Meadowlark Lane, to ask you to intercede in the matter of the proposal to turn the lot at 1310 Sag Harbor-Bridgehampton Turnpike into an impound yard for PSEG, which already has put material on the stripped-bare site. As you know, this parcel is part of the Long Pond Greenbelt, a sensitive green area that runs, like the turnpike, from Sag Harbor through Bridgehampton. The Greenbelt itself was established, supposedly in perpetuity, by the combined efforts of several conservation groups and their members, myself included. On the face of it, any impingement of the sort proposed should be way out of bounds for this protected zone. I ask that you take the side of preservation and act to defeat this proposal.

Best, George
