Subject: Long Pond Greenbelt

Dear Elected Officials,

I'm writing to express my adamant opposition to build an impound lot on the Sag Harbor property in the Long Pond Greenbelt.

While I recognize the property has already been degraded from a fully natural state, there is still significant ground and water contamination that would come from further developing the site as an impound lot.

The chemicals that would leach from the fresh pavement alone would contribute an unacceptable amount of contamination as would the oil that will inevitably drip from the cars parked in the lot.

Please consider alternative sites for the needed impound lot.

Yours,
Greg Wiseman
