**Subject: Remkus-Impound**

May 23, 2018

Dear Mayor Schroeder and the Board of Trustees:

As a lifelong resident of Sag Harbor I would like to share my concerns about the proposed Impound Center on the Sag Harbor Turnpike. As a taxpayer and village resident I do not believe that we need to pave, install lighting, fencing, and security cameras and whatever else might be needed to secure the vehicles out in the woods. How many vehicles are actually ever impounded at once? Three? Five? Couldn't room be allotted behind the village barn-which is already paved and secure? There seems to be quite a bit of room there. How could vehicles be secured up at the old dump-in the middle of nowhere?

To have an impound lot at one of the most utilized entrances to our village would look awful. We don't need another reason-in the words of Joni Mitchell- 'to pave paradise and put up a parking lot.' What we need is less pavement and more green space to secure the future of our village and our planet.

The Long Pond Greenbelt is one of the most wonderful things that we have. How amazing it is to be there surrounded by nature. I am ever so grateful that that land has been preserved. I think it would be in the best interest of all of our residents-as well as the future generations of residents to preserve the additional land and make it a part of the Greenbelt.

Thank you for your time.

Sincerely,  
Nancy Remkus  
Joels Lane-Sag Harbor, NY
